CHALLENGE PREVIEWS

Choose Your Challenge. Start A Team.

Destination Imagination is an educational program where student teams solve open-ended Challenges and can present their solutions at tournaments.

Technical

Your vehicles are cranked and ready to tell their story. Will you push it, play it safe, or take the big risk? Just make sure you get In the Zone!

Scientific

Art can begin with a flick of the wrist, but can it ride on the wind? If you take on this Challenge, you'll imagine a character so light and airy that it could slip, slide and sail away!

Fine Arts

With the right camouflage, you can become anyone or anything. Superheroes and chameleons change themselves every day! Who will you be when you take the mask away?

Improvistational

The world has undergone a dramatic change overnight! OK team, grab some T-shirts and markers and see if you can make sense of this Change in RealiTee!

Structural

Let's do the twist! It goes like this: Build a structure that can survive a serious hit while holding weight. That's what we're torquing about!

Service Learning

LIGHTS: See a community need? **CAMERA:** Solve the problem the best way you can! **ACTION:** Then unveil your documentary film to a captivated audience.

Early Learning

The colors of the rainbow are everywhere you look. In this Challenge, it is time to celebrate them all on ROY G. BIV's birthday. Pick your favorite color and join the party!
